

ENTRY DOORS

A close-up photograph of a dark-stained wood entry door. The door features a multi-paned window at the top, a black deadbolt lock, and a black vertical handle. The wood grain is clearly visible, and the lighting is soft, highlighting the texture of the door.

ENTRY DOORS

NEW FOR 2024

We rely on our trusted building professionals, contractors, and homeowners, in partnership with our experienced door product team, for input on exterior design trends. We're excited to introduce new options which elevate the integrity, function and beauty of our entry doors.

PROVIA® BUILDS DOORS THE PROFESSIONAL WAY

ProVia caters to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as “professional-class.” We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

WHAT MAKES PROVIA PROFESSIONAL-CLASS?

ENTRY SYSTEMS **TAILORED** FOR YOUR HOME

Today’s off-the-rack doors, which are mass-produced and not customized for your home, often fall short of expectations and performance.

These shortcomings are the driving force behind ProVia’s custom entry doors, built to your home’s exact measurements for a precise fit, protection, security, and energy efficiency. The materials that go into our custom-made doors are premium quality and exceptionally durable, far surpassing the ready-made doors at the big-box hardware stores, and our craftsmanship and care for details can be seen in each door we produce.

SECURITY | We ensure the strength and security of every door, so you have peace of mind and can focus on what’s really important - your life.

DURABILITY | Crafted with the finest materials and backed by our Lifetime Limited Transferable Warranty, the durability of our products can’t be beat.

BEAUTY | A beautiful ProVia entry system will always greet your guests with classic elegance and style.

ENERGY EFFICIENCY | Engineered to keep the elements at bay and your home comfortable all year long.

INDUSTRY ASSOCIATION

ProVia is a proud member of the Window and Door Manufacturers Association (WDMA) and American Architectural Manufacturers Association (AAMA) - leading voices in our industry. As such, we support advocacy in building code and ASTM standard arenas, quality materials, installation and design in doors and windows.

ENHANCE YOUR CURB APPEAL

Professional-grade exterior products from ProVia® boost curb appeal and offer protection and security. Elevate the appearance and upgrade privacy and safety of your home with these entry door options and accessories.

LET THE LIGHT SHINE IN

Shield your front door from extreme weather and welcome more natural light in your home with a stylish storm door. Durable, attractive storm doors from ProVia provide protection, prevent drafts, and infuse your entryway with abundant sunlight

Create an elegant entryway with ProVia beveled glass. Cut and polished glass, intricate etched designs, and brass or zinc inlays combine for a multifaceted, magnificent doorway.

CUSTOM COLORS

ProVia offers a diverse collection of attractive entry door paint colors, but for homeowners who want to showcase their personal aesthetic, custom color matching is the perfect option. Provide your dealer with your favorite paint swatch, and we'll deliver a beautifully finished door that matches your style.

SMART HOME TECH

SCHLAGE ENCODE PLUS™ SMART WIFI DEADBOLT

Arm your entryway with a durable ProVia door equipped with Schlage Encode Plus Smart WiFi Deadbolt. Convenient home access, control, security, and peace of mind, all in the palm of your hand.

THE COMPONENTS

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

- A** Your home is unique and deserves to have **custom glass options** like our ComforTech™ Warm Edge Glazing Systems which include decorative glass, art glass, internal blinds and internal and external grids in many grid patterns and colors.

 Impact Shield doors feature laminated glass.

- B** Our **2½" casing** conveniently covers paint lines providing a professional installation. **Also available in 3½"**. Choose from Cherry, Mahogany, Oak and Poplar. Flat Fir and Poplar trim are available in paint, stain and glazed finishes.

- C** Glass trim is available in different textures and styles to best complement each door with glass. Trim options will be determined based on the door style chosen. All glass trim falls into one of two main categories: Flat and Contoured.

D The **Z-AC™ threshold** has an auto-adjusting riser and built-in sealing system that redefines how your door can perform for you. Standard on Embarq, Signet and Legacy.

- **Automatically adjusts** to your entry door's changing needs over time, eliminating service calls
- Delivers **protection** against air and water infiltration

E Three **heavy-duty ball bearing hinges** come standard with every entry system.

Additional 4th hinge option for greater durability. (only available with FrameSaver®)

A 4th hinge is standard on 8 ft. doors.

H The **dust box** in the deadbolt strike provides a barrier to air infiltration while providing a nice appearance that most other door manufacturers don't provide.

F The energy-efficient **weatherstripping** runs along the top and sides of the door and interlocks with the CornerShield™ for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

H An exclusively designed **fully adjustable strike plate** is included. This unique 2-piece construction makes our doors easier to custom fit.

G We include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

I **Bulb and dual blade sweep** virtually eliminates drafts, keeping your home comfortable.

THE COMPONENTS

FRAMES

FrameSaver®

FrameSaver wood frame and brickmold with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with **PVC vinyl coated aluminum frame cladding** outside.

Also available with smooth cladding.

PermaTech™

Our **PermaTech™ Composite door frame system** option combines all the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.*

* No storm door applied. See full warranty for limitations.

Steel L-Frame

Available on select Signet and Legacy door styles

● Aluminum door stop provides greater security and is more durable than wood

● Energy efficient weatherstripping

● 18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security

(NOT tested for Certified Wind Load or Impact Shield regions)

Not all Steel L-Frames are ENERGY STAR® certified.

FusionFrame™

FusionFrame: A one-of-a-kind alternative to composite or wood jambs, this component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

Not available for outswing doors. See entryLINK for complete limitations and restrictions.

**Finish warranty will match the finish warranty of door series*

Standard Brickmold (Smooth)

All FusionFrame options are available in textured or smooth.

3½" Flat Rippable Brickmold (Textured)

FLOATING BRICKMOLD

Even if your walls aren't plumb, your door unit can be. With ¼" of "float," the floating brickmold adjusts to fit your needs. Remove covers, install fasteners and reattach covers for a flawless, clean install.

INSTALLATION HOLES

Pre-drilled holes in frame for ease of installation.

COMPOSITE BOTTOM

Prevents water absorption, warping and rotting.

PLUMB INDICATOR

Removable frame stop cover allows for concealed plumb indicator and fasteners.

- Installation made easy
- Removable frame and brickmold covers
- Eliminates unsightly fastener holes

ULTIMATE FLEXIBILITY

Get ultimate flexibility between 4⁹/₁₆" and 8⁹/₁₆" frame widths.

ADDITIONAL OPTIONS

Mull Cover for 1" Build-Up

Transom Cover 4⁹/₁₆" up to 6⁹/₁₆" jambs

3½" * Rippable Brickmold to 2" – Thickness of 1¹/₁₆"

**Ripping brickmold produces a rough-cut edge which will be painted or stained, but not exactly match the original textured or smooth finish.*

EMBARQ® FIBERGLASS

EXCEPTIONAL EFFICIENCY, ELEGANT AESTHETICS

The Embarq fiberglass entry door from ProVia® sets the standard for exceptional energy efficiency. The innovative design includes engineered channels in the side rails and header, and a polyurethane core with significantly more insulating value than a typical fiberglass door. This 2 1/2" thick robust entry door is not only highly durable – it's gorgeous as well, with the authentic look of rich, handsome wood.

EMBARQ SKIN OPTIONS

ALL Embarq Fiberglass Entry Systems are ENERGY STAR® Certified.

15-YEAR FINISH WARRANTY*

See pgs. 85-89 for paint and stain finishes.

EMBARQ FIBERGLASS DOOR STYLES

SIDELITES

- ⌘ Embarq® Cherry
- Embarq® Mahogany
- +
- Embarq® Knotty Alder

*Warranty time period may be limited in extreme applications. See warranty for details.

Stiles and rails are dovetailed and glued at each corner creating a structurally solid, integrated frame.

We engineered a channel in the side rails and header of the door to allow for a **larger energy-efficient polyurethane core**. Our computer-controlled process fills every crevice with the foam barrier material resulting in **a level of energy efficiency unparalleled in the industry**.

We started from the inside out to maximize energy savings and reduce thermal loss, resulting in the most energy-efficient door in the U.S. market. In fact, this door offers **significantly more insulating value than a typical fiberglass entry door**, giving an unprecedented U-Factor of up to 0.10 - the lowest recorded heat conduction measurement for entry doors in the U.S.

The authentic wood look is made possible by using cutting-edge **NVD** (Nickel Vapor Deposition) technology by MasterGrain™.

Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.

To enhance efficiency and accommodate more insulation, we thickened the door and sidelites from the standard 1 1/4" to 2 1/2" which is **43% thicker** than standard exterior doors. We also engineered a **dual-perimeter seal** for the entry door to create a superior barrier against drafts and energy leaks.

Door edge is constructed with Cherry, Mahogany or Oak wood matching the selected series.

The **4 1/4" finger-jointed 4-ply hardwood strike stile** provides a solid mounting surface for Emtek® hardware and superior structural integrity.

The revolutionary **DuraFuse™ Finishing System featuring P³ Fusion** yields unprecedented finish durability.

Z-AC Threshold with auto-adjusting riser. Standard with anodized bronze finish.

A custom-designed sweep accommodates the Embarq door's added thickness. This creates a new breed of thermal barrier to keep out unwanted elements and uncomfortable temperatures.

EMBARQ® FIBERGLASS

QUAD GLASS SYSTEM

For an entry door as uncompromising as Embarq, only the most energy efficient glass package will do. The Quad Glass System utilizes a 1³/₁₆" insulated unit with two panes of low-e glass and warm-edge spacers. Available only with Embarq fiberglass doors and sidelites, the system provides optimal energy efficiency.

- A** Low-E Glass Surface
- B** Krypton Filled Air Space
- C** Argon Filled Air Space
- D** Decorative Glass Core (optional)
- E** Super Spacer®
- F** Barrier Sealant
- G** We re-engineered our ComforTech Warm Edge Glazing System to accommodate for the extra panes of glass in this highly efficient package.

SIGNET® FIBERGLASS

Signet Fiberglass doors are available in Mahogany, Cherry, Oak, Knotty Alder, Fir and Smooth Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P³ Fusion, allowing us to offer an industry-best 15-year* finish warranty.

SIGNET SKIN OPTIONS

 **CUSTOM WIDTHS & HEIGHTS**
Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8" increments.

 **CUSTOMIZE BOTH SIDES**
You can customize your entry by ordering a different series, style and finish on each side of your door.

 Most Signet Fiberglass Entry Systems are ENERGY STAR® Certified.

15-YEAR FINISH WARRANTY*

See pgs. 85-89 for paint and stain finishes.

HERITAGE FIBERGLASS DOOR STYLES

SIDELITES

- Oak Grain
- Smooth Fiberglass
- △ Available in 30" Single or 60" French Doors

 Only Heritage Fiberglass doors without glass are available as an Impact Shield Product.

Entry System U-Factor: As low as .14 (Tested to NFRC specifications for a 6 panel door with wood frame).

* Warranty time period may be limited in extreme applications. See warranty for details.

Polyurethane core reduces energy loss.

Improved definition panel profile creates excellent shadow lines and distinct panel designs.

Specially engineered fiberglass door facings will not dent and resist splitting, cracking and warping.

Plugless Glass Trim is optional on Heritage Fiberglass. (see entryLINK for available styles)

U.S. Patent: 9,562,389
U.S. Patent: 9,976,338

ZAI™ threshold has a manually-adjustable riser with complementary screw cover caps. Standard with aluminum mill finish.

1 1/8" Finger-jointed, 2-ply solid oak laminated stiles for both hinge and strike sides are proven to provide increased rigidity and structural integrity.

Variable-depth woodgrain texture with hand-applied stain imitates a wood door appearance.

Square-edge design offers an attractive wood door appearance.

Lock area is reinforced to provide a solid mounting surface for decorative hardware.

A high-performance, composite material is used on all Heritage fiberglass bottom rails, giving excellent rot-resistance.

LEGACY™ STEEL

Legacy Steel features add up to a professional-class product. Whether you select Legacy Woodgrain Textured Steel or Smooth Steel, our entry systems will provide an elegant, durable and energy efficient addition to any home.

LEGACY SKIN OPTIONS

CUSTOM WIDTHS & HEIGHTS

Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8" increments.

CUSTOMIZE BOTH SIDES

You can customize your entry by ordering a different series, style and finish on each side of your door.

Most Legacy Steel Entry Systems are ENERGY STAR® Certified.

10-YEAR FINISH WARRANTY*

See pgs. 85-89 for paint and stain finishes.

Legacy Steel Doors with full-lite or half-lite decorative glass with ComforTech™ glazing will include a pane of Low-E glass in order to be ENERGY STAR certified. This includes the following styles; 150, 230, 239, 240, 350, 430, 437, 439 and 460. Since Low-E glass has a slight color tint, it is recommended that sidelites and transoms are ordered with optional Low-E pane to match the door.

FRENCH DOORS

French doors make an elegant statement like nothing else. Express your personality by creating a simple yet striking entry. Make it as ornate and beautiful as you like.

FRENCH DOOR DETAILS

- All door styles are available as a French Door
- Available with FrameSaver® or Steel L-Frame
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Available with Trilennium and PanoLock multi point hardware

ASTRAGAL DETAILS

The French Door Astragal provides functionality and security

Astragal secures inactive door at top and bottom of your french door system

Lockable throw bolts improve security

Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements

Astragal is stained to match Signet Fiberglass stained doors.

STYLES/CONFIGURATIONS

All door styles are available as a French Door. (See pages 9-20 for [Impact Shield](#) & [Windload](#) availability)

UNEQUAL FRENCH DOORS

Unequal french doors allow you to use the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in smooth steel only.
Internal blind sizes are limited.
See Price List for details.

INSCRIBED DOORS

Elegant and refined to complement an entrance way. Each design is engraved into a Signet® Cherry fiberglass panel showcasing true richness of color and sophistication. Also available with three stainless steel inlay models.

Available in **CHERRY STAINS**

R-Value reflects properties of the glass only. Center of glass calculations are based upon software from Lawrence Berkeley National Laboratory.

ELEVATION SERIES

for customers in high altitude areas

Insulated glass without Argon or Krypton. Capillary tubes are open and inserted behind glazing bead. Low-E softcoat and hardcoat available for vinyl patio doors.

ComforTech **TLE**
ComforTech **TLE-UV**

ComforTech **DLE**
ComforTech **DLE-UV**

ComforTech **DE**

Understanding the Acronyms

- T** - Triple Glazed
- D** - Double Glazed
- L** - Low E
- C** - Clear
- A** - Argon
- K** - Krypton
- E** - Elevation (no gas)
- UV** - Ultraviolet
- HC** - Hard Coat

Some Elevation Series (TLE-UV, TLE, DLE-UV and DLE) glass offerings require a hardcoat option to be ENERGY STAR® compliant.

IMPACT SHIELD

All Impact Shield products feature ComforTech™ laminated glass.

ComforTech **TLK-C**
ComforTech **TLK-UV-C**

ComforTech **TLA-C**
ComforTech **TLA-UV-C**

ComforTech **DLA-C**
ComforTech **DLA-UV-C**

ComforTech **DC-C**

R-Value reflects properties of the glass only. Center of glass calculations are based upon software from Lawrence Berkeley National Laboratory.

FLORIDA

Impact Shield products are designed to protect your family and home against the harshest storms and deter burglars. All entry systems and patio doors in this Impact Shield products section are wind-borne debris resistant and approved by the state of Florida. floridabuilding.org

SIMULATED DIVIDED LITES

Simulated Divided Lites (SDL) are reminiscent of old world craftsmanship when separate pieces of glass were mullioned together with wooden grids. We deliver that same stunning appearance through our high-tech stained fiberglass 1" wide x 1/32" thick grids combined with the energy efficient qualities of our ComforTech™ glass packages.

CRAFTSMAN

Only available for Signet® Fir Series and Signet 420 Smooth.

CONTOURED

Available for all styles shown, except for Signet Fir Series.

BEVELED GLASS

The beauty of beveled glass and coming combine for a distinguished take on traditional divided lites.

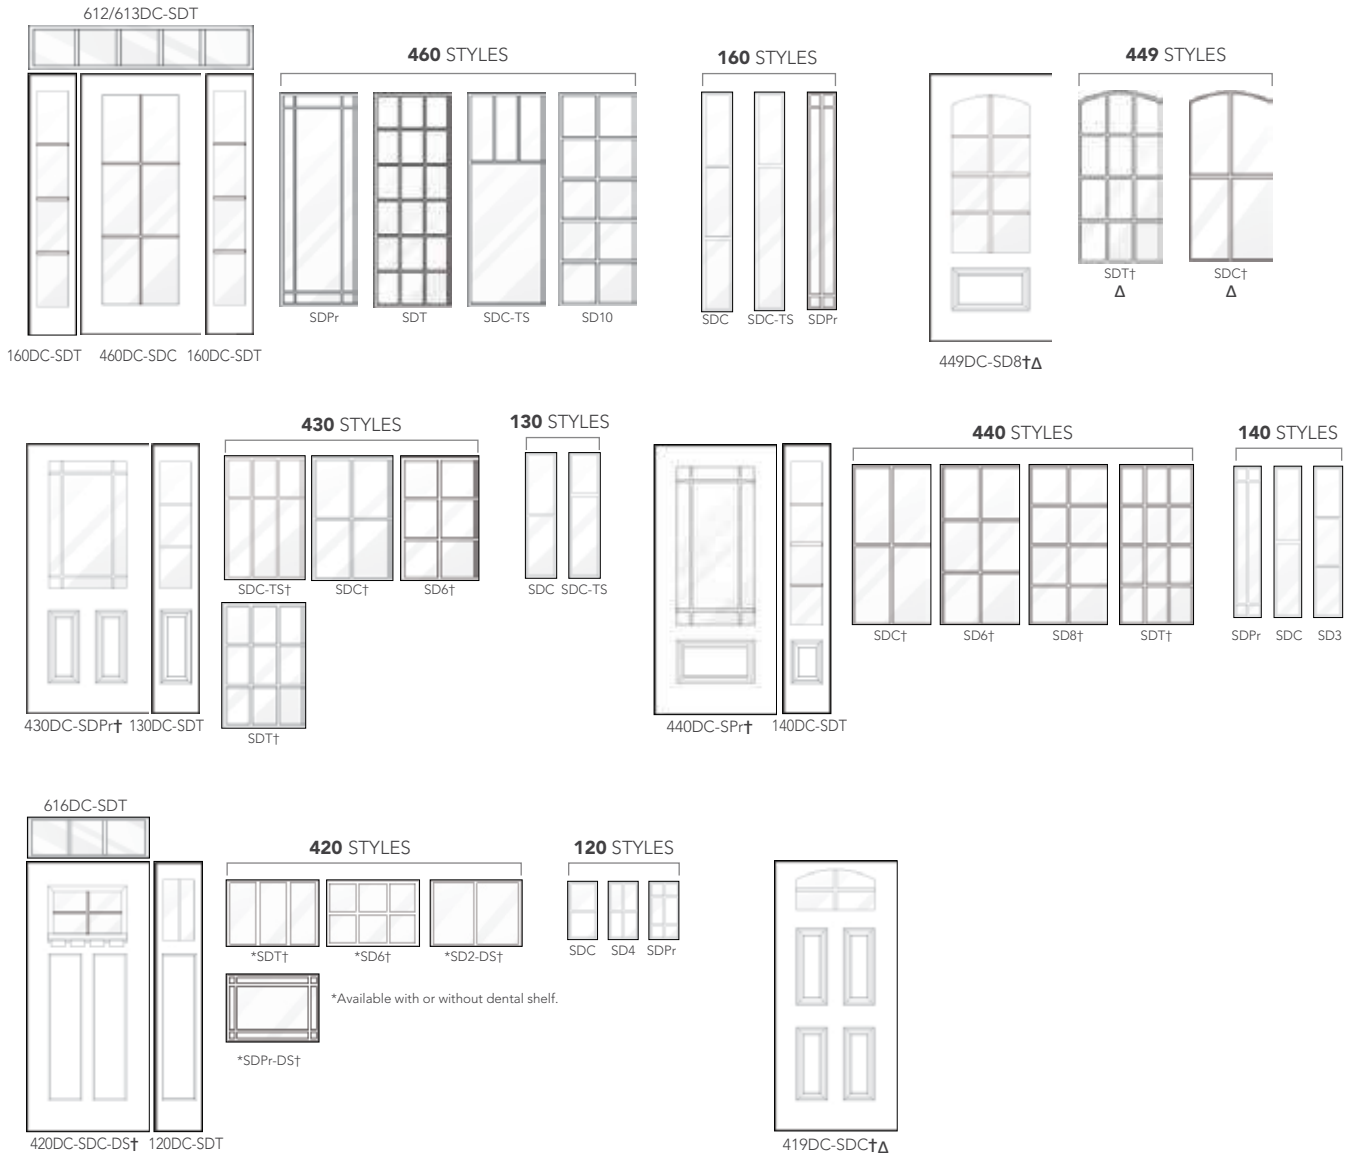

Each piece of beveled glass is secured with coming for the beautiful look of a true divided light, with the efficiency of a single doorlight.

† For additional door panel styles see pg. 9 (for Embarq®), pg. 13 (for Signet®)

▲ Requires plugless trim

△ Not Available with beveled glass

All entry systems with Simulated Divided Lites can be ENERGY STAR® Certified depending on the glazing system you choose. See entryLINK for which glazing system is required for ENERGY STAR certification, as well as for availability.

LIFETIME LIMITED WARRANTY
Includes Glass Breakage & Seal Failure

Since Low-E glass has a slight color tint, it is recommended that sidelites are ordered with the same glazing system as the door.

All doors and sidelites with SDL's are available with privacy glass. SDL's match stain or paint of door.

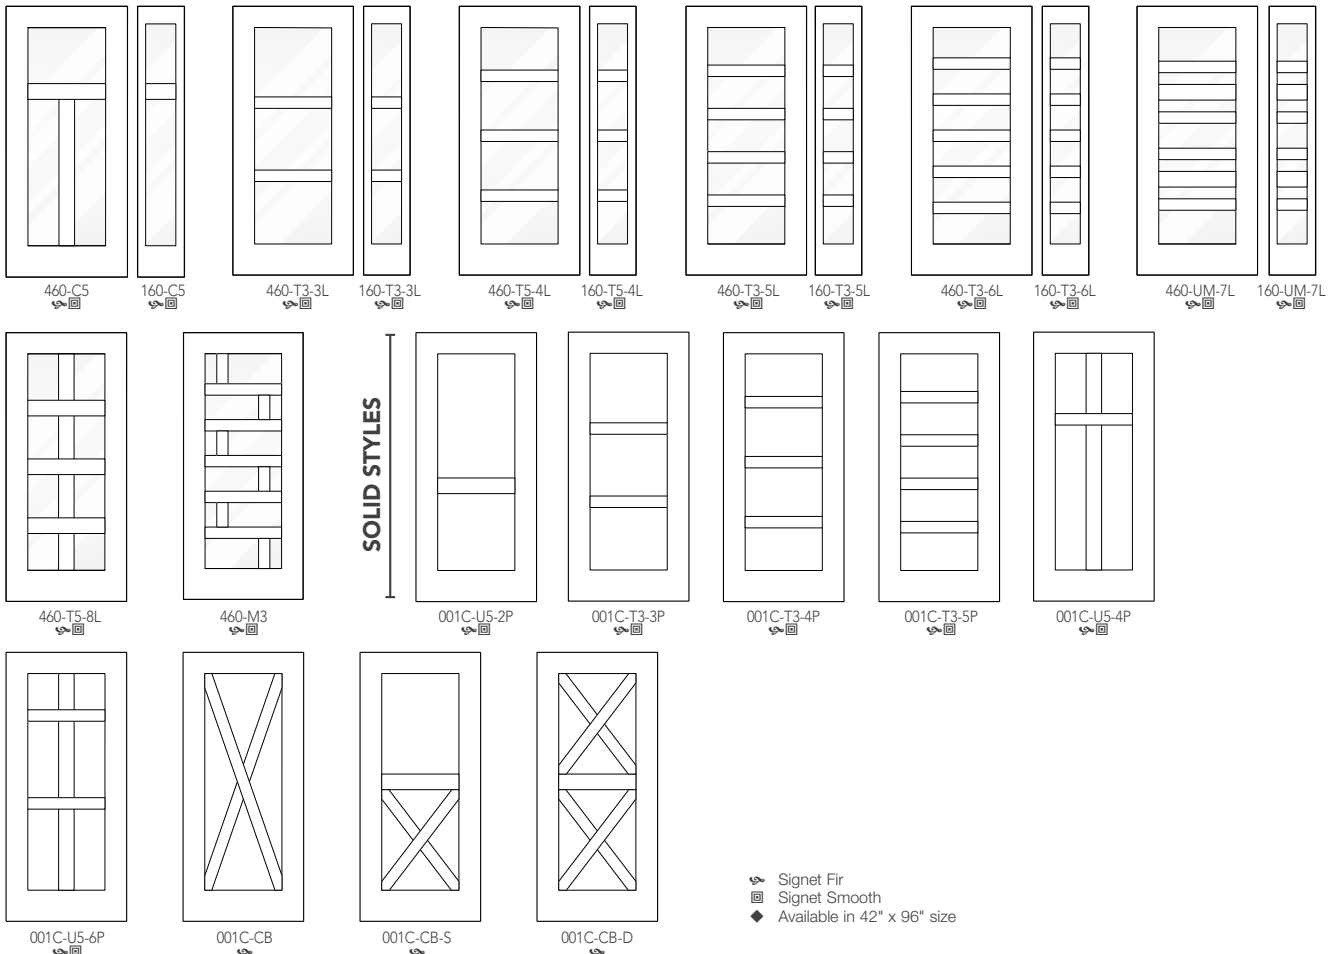

SIMULATED DIVIDED PANELS

For a stylish and modern look, Simulated Divided Panel fiberglass doors feature wider SDL's (3" and 5" options) applied to the surface of glass on 460 style Smooth or Fir doors. They may also be applied directly on the skin of a Smooth or Fir 001 style door. Numerous configurations and endless paint, glaze or stain colors allow you to create a door design that is contemporary, sophisticated and on-trend.

Available in Signet® Fir or Smooth with Clear glass or Privacy glass.
 Simulated Divided Panel designs cannot be customized.

460-M3 Signet Fir Fiberglass entry door stained Truffle with Chinchilla privacy glass and a Satin Nickel Emtek™ Mortise Adelaide Handle

- 🌲 Signet Fir
- 🏠 Signet Smooth
- ◆ Available in Smooth 42" x 96" size

All 8' Signet Smooth doors with Simulated Divided Panels will have raised flat trim around the glass, as shown here.

WHITE INTERNAL BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors.

Constructed with sturdy aluminum and enclosed in tempered safety glass, the blinds are protected from weathering, damage, dust and they are not a hindrance to cleaning your glass.

AVAILABLE DOOR STYLES

Available with clear glass and internal grids.

† For additional door panel styles see pg. 14 (for Signet®), pg. 16 (for Heritage™) or pg. 18 (for Legacy™)
 * On Signet doors, blind operator will be operator pictured on page 90

FEATURES

- Ergo Track on glass
- Eliminated Slat/Privacy Channel Gap
- U-Privacy Channels (side, top & bottom) eliminate light gaps, shadows and sunlight glare
- Full Tilt Closure (top to bottom) allows the blinds to tilt completely closed keeping unwanted light out

NEW

Available as an Impact Shield rated product and tested for Certified Windload Regions.

COLORED INTERNAL BLINDS

Internal blinds are available in several neutral hues to complement any room in the house. Easy to clean; no more dusting of blinds. Internal blinds are suitable for entry doors and patio doors. Offering a 10-Year Warranty.

Blind operator as viewed from the interior of your home.

PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

PRIVACY RATING SCALE

1 2 3 4 5 6 7 8 9 10

less privacy

more privacy

* Mistify and Twilight privacy glass only available on select door styles. See entryLINK for details.

These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and also the amount of light in the room in comparison to the light outside your home.

For extra privacy, contact customer service to add an extra pane of privacy glass to your door or window order.

Since Low-E glass has a slight color tint, it is recommended that sidelites be ordered with the same glazing system as the door.

LIFETIME LIMITED WARRANTY
Includes Glass Breakage & Seal Failure

Note - Privacy glass is available in Simulated Divided Lites (see pg. 29) Simulated Divided Panels (pg. 31) and External Grids (see pg 36).

See entryLINK for which glazing system is required for ENERGY STAR certification, as well as for availability.

† For additional door panel styles see pg. 10 (for Embarq®), pg. 14 (for Signet®), pg. 16 (for Heritage™) or pg. 18 (for Legacy™)

§ Also available in 10" width.

◆ Cannot be mullied with Heritage Fiberglass doors in Certified Wind Load regions

◆ Only available with Modern Flat Glass Trim. Only available with 770 sidelite(s) or 160 sidelite(s) with Modern Flat Glass Trim.

DECORATIVE GLASS

Decorative glass is unique in that it achieves its personality and beauty through aesthetic imperfections – waves, striations, and air bubbles that create natural effects and singular characteristics. ProVia® decorative glass mimics the hand-made sheet glass of centuries past, and these stunning ornamental designs elevate the look of entry doors and windows, boosting the curb appeal of your home.

All ProVia decorative glass designs include the ComforTech™ Warm Edge Glazing System, which measurably improves its thermal performance and energy efficiency. Impact Shield laminated glass reinforcement is available as an upgrade, fortifying the decorative glass to withstand windborne storm debris and repeated blows.

ProVia Exclusive

These decorative glass designs are only found on ProVia doors and windows. This gives your home a unique style that can't be found anywhere else.

Covered by a Lifetime Limited Warranty

Warranty includes glass breakage and seal failure.

Available on Entry Doors and Windows

Watch the Decorative Glass creation process here!

ART GLASS

A ProVia® exclusive, Art Glass offers you an opportunity to create a unique artistic statement using design and color. Your entry door glass can reflect the inspiration of your creative vision and allow you to display an original piece of art with beautiful curb appeal.

DESIGN A **UNIQUE** PIECE OF ART GLASS

- Using **entryLINK™** or the **ProVia app**, create an entry door configuration, then select "**Art Glass**" as the glass type.
- Choose an Art Glass **design** that suits your unique style.
- Pick a complementary or contrasting **resin bead color**.
- Choose from four elegant **privacy glass options**, or **clear glass**.
- Select **colors** to fill in the design.
 - Select hues from ProVia **Standard** and **Trending** color palettes.
 - **Clear Fill** and **No Fill** may also be chosen as well as custom colors.
 - Color placement and number of colors is pre-determined and will render as you choose them. **Picture this as a color-by-number system!**

Experiment with various color combinations until you find the perfect match for your home.

COLOR FILL OPTIONS

➤ Denotes Trending Color

Always refer to our color selector for accurate color representation.

Privacy glass is tempered for safety and this process may cause minuscule surface waves on the glass. Since the surface is not completely flat, the color fill may migrate toward lower points in the glass, resulting in varied saturation levels on the surface.

Clear Fill

CLEAR FILL

Clear Fill imparts a degree of transparency to privacy glass. The Clear Fill option may be used on privacy glass sections of the design to allow homeowners a clearer, yet translucent view.

STAIN FINISHES

Applied with care, by professionals. If you buy an entry system and finish it yourself, chances are it's the first door you've ever painted or stained. At ProVia®, stains are hand-applied by professional craftsmen, many who have been perfecting their work for years.

EMBARQ® & SIGNET®

7-STEP STAIN FINISHING SYSTEM

1. **DURAFUSE™** - Proprietary P³ Fusion Preparation Processes ensuring unprecedented finish durability
2. **HAND-APPLIED STAIN FINISH** formulated exclusively for Signet fiberglass doors
3. A layer of 2-part urethane, catalyst-hardened **CLEAR COAT WITH UV INHIBITORS** is applied
4. Clear coat is **OVEN-CURED** for lasting durability
5. The door is **HAND-SANDED**, preparing the surface for the second layer of clear coat
6. A second layer of 2-part urethane, catalyst-hardened **CLEAR COAT WITH UV INHIBITORS** is applied
7. The door is **OVEN-CURED** a second time, creating a long-lasting, durable finish

Legacy® 460 in Eucalyptus with
Genesis decorative glass and Emtex®
Select Satin Nickel/Black Hardware

HARDWARE

We offer a variety of designs and finishes all with their own security features, unique functionality, and advanced technology. You'll be sure to find the features and design that will ensure your front door is the perfect complement to your new entryway.

Schlage® Addison hardware in Black

See entry door hardware styles, colors and operation videos on our website.

Emtek® Hanover Lever in Satin Brass

PANOLOCK®+ MULTI-POINT LOCK

PanoLock® is the first and only multi-point lock that works with multiple hardware options, bringing security and performance to every entry and hinged patio door.

A. Tapered bolt.

Unlike other locks that tend to catch, PanoLock's tapered bolts engage easily, even when the door is out of alignment.

B. Adjustable roller strike.

Rollers lower operating force and allow the tapered bolt to gently snug the door panel against the weatherstrip.

STRENGTH

PanoLock offers enhanced strength and security vs. standard locking systems.

ENHANCED PERFORMANCE

Equipped with two tapered locks, PanoLock provides enhanced performance while reducing operation force.

ULTIMATE SECURITY

PanoLock features roller strike plates equipped with extra anchor screws enhancing security.

FLEXIBILITY

PanoLock can be used on both inswing and outswing applications.

MULTIPLE HARDWARE OPTIONS

Thumb press, lever or knob - PanoLock+ has the ability to be paired with Schlage® and the Emtek® Urban Modern handleset. Some of the options available to you are shown below.

EMTEK

SCHLAGE

1 Tapered Bolt

SECURITY SIMPLIFIED

PanoLock allows you to enjoy the strength and security of a multi-point lock with the ease of operation of a standard handle set. A simple rotation of the key or thumb turn activates the **top and bottom tapered bolts**.

PanoLock+ will not activate the middle latch bolt to use as a locking point. This middle latch bolt will work separately from the other two tapered bolts. It will be controlled entirely by the handleset.

PanoLock is available on standard height and 8' foot doors.

Latch Bolt

FACEPLATE FINISHES

Brushed Clear Anodized

Victorian Bronze

2 Tapered Bolt

TRILENNIUM® MULTI-POINT HARDWARE

Trilennium® Multi-Point Locking System provides ultimate protection and peace of mind with the power of three full deadbolts and a solid lock design that even strengthens the door panel.

Trilennium hardware is an option for all standard size and 8' Signet® and Heritage™ fiberglass doors.

Also available on all 20-gauge Legacy™ steel doors. | NOT available on Steel L-Frames

Trilennium hardware has a 10-Year warranty on materials and workmanship.

Lifetime Flat Bronze*

Lifetime Black

* Flat Bronze does not coordinate with Black/Bronze accessories.

Lifetime finish warranty time period is limited to five years if product is installed in a coastal region.

The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1" deadbolts latch with deadbolt throw.
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and $\frac{3}{8}$ " pull-in when deadbolted.

HOPPE® MULTI-POINT HARDWARE

Hoppe Multi-Point hardware offers the additional security of four points of latching when the door is locked, and the easy operation of one point of latching when the door is unlocked.

NEW ORLEANS CONTEMPORARY ARCH

Exterior

Interior

- Stainless Steel and other non-corrosive components.
- Anti-Back Drive prevents locking points from disengaging from the outside for added security.
- Latch Blocker on inactive systems will not allow multipoint activation until inactive system is activated.
- Lock Out Feature on interior system allows for multipoint activation from the exterior of the door by lifting handle.
- Backplate and cylinder housing are forged into one piece for improved appearance and easier installation.
- Simultaneous retraction feature enables all locking points to be retracted by pushing down on the inside handle.

ENTRY DOOR OPTIONS

The Hinge Straps, Clavos and Speakeasy are options that can give your entryway an old world look. Combine these options with our Signet® Knotty Alder Series to achieve a rustic or antique style. Hinge Straps, Clavos and Speakeasy are constructed of durable flat black aluminum.

002CP-449 Signet Cherry Fiberglass in Natural Leather Glaze with Oil Rubbed Bronze Emtek Davos Handle | 160 Style Signet Cherry sidelites with Waterfall Privacy Glass.

HINGE STRAPS Available on all door styles shown on opposite page

 Available as an Impact Shield product.

CLAVOS Available only on door styles shown with planks on opposite page (002CP-449, 002CP-437, 8' 002CP-449 and 8' 002CP-437)

 Available as an Impact Shield product.

SPEAKEASY Available on all door styles shown below except for 8' 002C-437 and 8' 002CP-437

NOT tested for Certified Wind Load or Impact Shield regions. (Doors with Speakeasy are not ENERGY STAR® certified.)

ProVia® does not recommend entry doors with Speakeasy applications in the Northern climate zone. We also recognize some of the North-Central climate zone areas are not suitable for this application as well. We recommend this application to be used only in the South-Central and Southern climate zones. Speakeasy applications carry a 5-year limited warranty. See price book for more details.

INTERIOR

EXTERIOR

RANGER® PET DOOR

Engineered from the best raw materials for a rugged, long-lasting door.

- **Cellular PVC Frame** – Strong, weatherproof, and mold-resistant, and 3,000X more insulating than metal frames.
- **Rugged Flap System** – The insulated flap system is made from premium materials for maximum energy-efficiency, pet safety, and durability. The flap has an insulating SBR rubber core, protected with marine-grade canvas on each side.
- **Locking Security Panel** – All door-mounted RANGER dog doors include a locking security panel.
- **DoubleMag™ Technology** for an airtight seal that keeps extreme weather outside.

COLORS

- Clear flap with white interior/exterior frame and a white locking panel on the interior.
- Grey flap with black interior/exterior frame and a black locking panel on the interior.

See [entryLink](#) for details

Medium: 9" x 13" opening for pets up to 40 lbs.

Large: 11" x 17" opening for pets up to 100 lbs.

X-Large: 16" x 23" opening for pets up to 220 lbs.

White Locking Security Panel as viewed from interior of your home.

◇ Smooth Sandstone cladding is a close match, but not an exact match to Sandstone paint color.

* Smooth Classic Bronze cladding does not match Rustic Bronze cladding color or Rustic Bronze paint color.

HINGED PATIO DOORS

Hinged Patio Doors are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet® and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

Hinged Patio Doors with Heritage Fiberglass are NOT available in Certified Wind Load regions.

460 Style Smooth Legacy Steel Hinged Patio Door painted Rustic Bronze featuring White Internal Blinds and a Black Schlage Encode Plus™ Electronic Deadbolt.

PATIO DOOR STANDARD FEATURES

A keyed **Schlage® Flair** handleset with a **Maximum Security Thumbturn deadbolt** is included. Choose from Bright Brass, Antique Brass, Satin Nickel or Black finish.

The lock area is reinforced with a **20-gauge steel security plate** for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. **BetterVue® fiberglass screen mesh** is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel screen is optional.

Suspended by ball bearing rollers this **top-hung heavy-duty aluminum screen frame** reduces binding, creating effortless operation. Screen frames are available in all standard paint colors.

Z-AC™ Threshold with an auto-adjusting riser. Available in Mill or Anodized Bronze Finish.

OPTIONS

Custom Widths and Heights - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8" increments.

Door Swing - (Doors viewed from above. Inswing only.)

Finishes - Patio doors are available in all finishes shown on pages 37-42.

* Optional Aluminum Frame Cladding will increase brickmold to brickmold width by 1/4" and height by 1/8". Not all sizes available in all door types.

STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality. Please see ProVia® Storm Door brochure or scan QR code for all options.

SCAN ME

Coal Black Spectrum 291SH Full View storm door with Black Sierra Mortise Handleset

Smooth function is essential. That's why we include a **quality door closer** in every storm door package. Varies by model.

Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.

Extruded aluminum frame adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

All our storm doors are constructed with **tempered safety glass**.

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

Non-operable sashes are secured by our **color matched polycarbonate clips** or an **internal sash lock system**. Varies by model.

Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.

Each door features **quality hardware** that adds beauty and functionality to your new storm door. Varies by model.

Corrosion-proof corner gussets enhance the structural integrity of the door.

Our **bottom expander with sweep** allows for a beautiful custom-fit to any entry. Varies by model.

STORM DOOR DETAILS

The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.
